Joseph W. Kay, department commander of the New York Grand Army of the Republic, to-day sent a letter to General Roe, declining the invitation for a number of reasons. These are, in brief, that the G. A. R. forces have been placed at the end of the procession instead of at the head of the column; that General Roe has taken no cognizance of Commander-in-Chief Albert D. Shaw, and has sent him no invitation to any of the functions; that the invitation for the G. A. R. organizations to participate in the parade has been extended at second hand through Colonel H. H. Adams, and that General O. O. Howard has been placed in command of the G. A. R. forces on the day of the parade, contrary to the regulations of that organization.

The decision to decline the invitation was reached at a meeting held this afternoon. Commander-in-Chief Albert D. Shaw, Department Commander Kay, Past Department Commander Atkinson, and Colonel J. A. ### DANGEROUS AGE

Ages at Which Men and Women Get Entangled in Marital Partnerships,

The most dangerous age for a bachelor s under 261-2, to be accurate, 26.35, as the registrar general dryly puts it in his statistical return just issued, says the St. Louis Republic. The most joyous and delightful age for a woman is something over 24.2-24.9. That is to say, that it was at those precise ages that the average bachelor of last year and the average

age bachelor of last year and the average maid became one.

The bachelor, however, grows more wary year by year. He was older in 18% than in 18%, when he fell into the toils. The average bachelor was married in 1897 at 25.30 years of age, quits .05 less. The girl too, has to wait longer now than she used to. She was .05 of a year younger in 1897 when she became a wife than in 1898. As for the people who marry as minors, they are rapidly becoming a vanishing number, among men at least; eighty-four out of every 1,000 husbands in 1874 were married under the age of 21, and so were 227 out of every 1,000 woman. The boy husbands have come down to fifty-one per 227 out of every 1,000 woman. The boy husbands have come down to fifty-one per 1,000 now; the girl wives have dropped to 170 per 1,000. There have not been so few boy and girl marriages at any time since

Of the total marriages in 1898, 42,751 perof the total marriages in 1885, 42,61 persons were minors. Of these there were 2 girls, 14 years; 10, 15; 158, 16; 5 boys, 16; 65 boys, 17; 1,196 girls, 17; and 3,803 boys and 6,294 girls, 15; over 18 the girl wives run into tens of thousands, and actually near ly 19,000 youths of 20 were married.

There has been a decided slump in wid-owers and widows of late. In 1871 128, husbands and 100 wives in every 1,000 were widowers and widows respectively. Things have changed since then; there were but ninety-eight widowers and sixty-nine wid ows in every 1,000 marriages in 1893. The widower, by the way, is obviously more dangerous to the susceptible heart of the opposite sex than the widow. It is to be noted, however, that when the widow selects a bachelor as a husband she takes a man nearly two years her junior; when she chooses a widower her husband is nearly five years older than herself.

Bill, TO ANNEX.

Bill. TO ANNEX.

There has been much talk during the past few days about the annexation of Manchester to Richmond. In view of the new census, and the fact that the Matchester people are anxious to get into the fold with Richmond, the next Legislature may be asked by the two cities to do something for them in this matter.

The population of Manchester is about 12,600, which added to Richmond's \$5,00 would place Richmond as the second city in the South.

upon the suggestion of the two cities The opinion of Attorney General Mon-tague in the case of the Grimes Battery claim for service rendered at Ocean View during the recent yellow fever epidmic at the Soldiers' Home, is of much interest and importance. The text of the opinion as presented to the Auditor, follows:

ATTORNEY GENERAL'S OPINION.
Richmond, Sept. 14, 1899.
Col. Morton Marye, Auditor Public Ac

in the sum of \$1,364.96 and your request for my opinion as to your authority to pay Artillery is issued by the mayor of Ports-mouth to the commandant of the Battery, and commands the same "to parade a began View, Va., on the 1st day of Au-gust, 1899, then and there to obey such or-ders as may be given according to law." I may you will observe that this order commands the Battery to aid the civil au-inorities, not within the territorial juris-meters of Postamouth, but some nine diction of Portsmouth, but some nin miles distant therefrom, at Ocean View in the county of Norfolk, it further at in the county of Norfolk. It further ap-pears that in pursuance of this order the Battery did very efficiently aid the quar-antine patrol at Ocean View in prevent-ing the landing of persons from the infec-ted yellow fever districts in and around the National Soldiers' Home, near Hamp-ton.

QUESTION ONE OF AUTHORITY. Whether this is the class of civil authorities competent to receive the milita aid provided for in the statute is, fromy point of view, needless to consider; for the larger question as to the authority

the larger question as to the authority of the mayor to issue any order at all re-quiring the aid of the military at a piace beyond his territorial jurisdiction must first be disposed of.

Section 388 of the code provides, in cer-tain cases, that "it shall be lawful for the sheriff of any county, or the mayor of any city" to call "upon the commandant of any division, brigade, regiment, or company," and it shall be the duty of such officer "upon whom such call is company," and it shall be the duty is such officer "upon whom such call made, to order out, in aid of the civil at thorities, the military force, or any par thereof, under his command." What civ if authorities are here meant? Manifes by the civil authorities of the county such sheriff or of the city of such mayo

such sheriff or of the city of such mayor.

The form of the summons from the sheriff or mayor to the commandant, which is prescribed in said section, in terms requires that the requested aid must be given within the county or city of such sheriff or mayor. Besides, the Mayor of Portsmouth is functus officio beyond the territorial jurisdiction of his city. So likewise are the civil authorities of that city without law or authority to perform quarantine patrol at Ocean View, a piace clearly beyond the territorial jurisdiction of their city.

BID NOT LEGALLY EXIST.

Such so-called civil authorities had no legal existence at Ocean View, and therefore there were no civil authorities to be

fore there were no civil authorities to be aided by the military. The Sheriff of Norfolk county, or his deputy, was alone authorized to issue an order for such miltary aid within his county, and nieth them issued such an order or united the order of the Mayor of Portsmouth From these considerations it seems plain that neither the sheriff of a county no the mayor of a city has authority unde service in any other county or city within the Commonwealth, and, therefore, the order in question and the services there-under performed are wholly without lawful warrant. Consequently, in that both the order and services are filegal, I am of opinion that there are no present funds in the Treasury available to pay the acount in question.
As to the merits of the claim I have

As to the merits of the claim I have no official concern. That these officers and men should be paid for their services, performed in good faith. I take it no one will dispute. But this is the province of the Legislature. I have only to construe the law, and as I understand it the disbursement of public moneys must be in strict conformity to public law. Very respectfully,
A. J. MONTAGUE,
Attorney-General.
